SUMMARY

Full-stack web developer with a B.Sc. in Computer Science and Information Technology and hands-on experience building and maintaining production web applications. Comfortable across the stack with React, Next.js, Vue.js, and Node.js, with a focus on responsive interfaces, clean API integration, and collaborative Git workflows.

EXPERIENCE

Nep Tech Pal

Pokhara, Nepal

Web Developer

Sep 2025 – Apr 2026

- Built and maintained full-stack features for the Loksewa Tayari exam-preparation platform using React, Next.js, and JavaScript.
- Developed responsive, user-focused frontend interfaces and integrated them with backend REST APIs for dynamic data handling.
- Contributed to backend tasks including data handling and feature integration to improve system performance and usability.
- Collaborated with cross-functional team members using Git and GitHub for version control, issue tracking, and code review.

Web Developer Intern

Feb 2025 – May 2025

- Developed frontend features with React/Next.js and JavaScript and assisted with backend data handling and feature integration.
- Performed bug fixing, testing, and ongoing maintenance across the Loksewa Tayari platform.

Independent Client (Remote)

Pokhara, Nepal

Virtual Assistant

Mar 2024 – Dec 2024

- Managed social media accounts, improving engagement and audience growth.
- Designed and published content, and planned content strategies to strengthen brand visibility.
- Monitored performance metrics and optimized content based on insights.

PROJECTS

CertChain | Next.js

certchain-appl-main.vercel.app

- Built the frontend of a certificate issuance and verification platform using Next.js with a responsive, user-friendly interface.
- Developed dynamic UI components for certificate display and verification workflows.
- Connected the frontend to backend services for real-time data handling, optimizing rendering and layout for performance.

Woodcraft | Next.js, Node.js, PostgreSQL

wood-craft-pi.vercel.app

- Developed a full-stack e-commerce application with secure user authentication and product management.
- Implemented shopping cart, order processing, and inventory management features.
- Designed responsive interfaces and integrated backend services with a database for efficient data handling.

Booksville | Vue.js

booksville.tech

- Built the frontend of a book catalog application using Vue.js with a clean, responsive UI.
- Developed interactive components for browsing and managing book content, connected to backend APIs for dynamic rendering.
